Bloomberg Tax

Bloomberg Tax AI Lab

Test drive the latest tax innovations now and get ahead of the curve.

Bloomberg Tax AI Lab is our testing environment for exploring AI-powered product concepts designed to transform the way you do tax research. Simply start a search and click on 'Turn on AI Lab' in the blue bar below the main search bar.

Get answers in seconds

The new enhancement is a question and answer service, combining Bloomberg Tax Research with a large language model (LLM) to produce an AI-generated summary response. This contextualized response provides a short synopsis, which also identifies the source materials and links directly to the most relevant Bloomberg Tax Research content.

1. Turn on AI Lab

Locate the blue banner below the search bar and click on "Turn on AI".

2. Utilize the Lab

Agree to the terms and conditions and start your search. You will get an AI-generated output that draws from our gold standard Portfolios, Fast Answers and Navigators.

3. Provide Feedback

Submit feedback to help us improve and shape the product for future enhancements.

4. Turn Off AI Lab

Simply click on 'Turn off AI' in the blue banner below the search bar.
